

Suggested Course Sequence – B. A. in Computer Science - AY 08-09

This is a **sample** sequence of courses and should only be used as a guide for establishing your schedule. Keep in mind that requirements do change from year to year. The Undergraduate Bulletin (the year you matriculated) is used to establish the specific requirements for the degree.

Notes:

- ① An Arts course from: ART100, 210,211,212, HLM100, CIN150 or DRA160.
- ② One upper level mathematics or computer science course.
- ③ One of three upper level computer science courses.
- ♦ This requirement differs from the B.S. in CS. The B.S. requires 3 lab science courses (two of which are sequential sciences for the science major), M260, M220, and CS340. The B.A. requires 2 lab science courses (can be non-sequential), no M260, M220 or CS340 – however, an extra Arts course must be taken.
- Computer science majors must take two writing intensive courses.
- Minimum overall average in major: 2.33, all courses in major must be for letter grade (no P/NP).
- A & S requires 120 credit hours for graduation.
- Current base language for the department is Java.
- Students that transfer to CS may have a different set of requirements based on their work at other institutions.
